Dr. Wolfgang P. Müller

Founder & CEO

”

In a word being an entrepreneur in my sense means: A life sentence. But I mean it in the exact opposite way – that is to say, being able to decide freely all lifelong and thereby bringing my entrepreneurial ideas to life. That began in my youthful years with the foundation of my very first company and is set to accompany me through to old age. As it happens, I'm anything but a typical publisher who is utterly fond of his published titles. Books, for me, are simply products that generate a great deal of enthusiasm and which can be marketed in every possible place. So came our international book business to light a few years ago – certainly not always very conformist, but always a nose length ahead of others. My fellow German from the self-declared land of poets, philosophers and books often found it hard to understand, but never did that obstruct the momentum of my entrepreneurship.

WHAT AUTHORS SAY

*Former Prime Minister

Andres Tarand

Tornadoes in Estonia

We should express our gratitude to the OmniScriptum Publishing Group for the very precise and flexible cooperation. The book «Tornadoes in Estonia» was published and delivered exactly on the dates planned by editors. It was our first experience to publish a book without live contacts with publishers but at the same time very encouraging to continue in modern way.

Vania Kachova

Heavy metals in soils from urbanized oak ecosystems in Sofia region

My editor assisted me the whole the time and even did some additional work for me. I have gladly recommended your publishing house to my colleagues. I do not see anything that should be improved. The entire process of publishing was very fast and the cooperation with me was perfect!

Generating A Superconductive Culture of Conscience

I have been quite satisfied with Omniscriptum's publication processes. The process has been largely under my personal control. The fact that authors retain their copyrights is a practical approach to modern publishing. It allows authors complete flexibility in the open-source dissemination of their own works while providing global access to their research.

Entrepreneurship and Innovation

Your service, due attention and care were excellent and most efficient in getting the booklet to print; and communication as well as order procedures afterwards were taken care of most professionally.
